

## CMS IN-TOUCH WEBINAR SERIES

### Grabbing the opportunity with both hands: Calling universities to action against racism

**9<sup>th</sup> September 2020**

**09:00 – 10:30 EST    14:00 – 15:30 BST**  
**15:00 – 16:30 SAST    23:00 – 00:30 AEST**

**Registration: [Here](#)**

This webinar invites the CMS and the management and organisation studies communities to reflect on our own practices within institutions that are heavily white. Within a context of institutionalised racism and machismo, the webinar will explore the role of:

(a) universities as organisations placed at the centre of educational and social practice and

(b) academics as educators and researchers influencing the next generation of citizens, organisations (including our universities) and policy making.

Ultimately, we hope to provide some suggestions of how we can upset the current academic paradigm based on systemic race (and gender) inequalities.
