# Table of Contents

- An User-Centered Database Design Environment  
  *Margha Alms*  
  1

- An Imprecise Querying Mechanism for the Reuse of Conceptual Schema Components  
  *Ana Paula Ambrosio*  
  12

- End User CASE - Specializing Rules in a Secure Environment  
  *Anthony Berglas*  
  19

- CASE Tool Integration: A State of the Art Review  
  *Rachelle Bosua and Sjaak Brinkkemper*  
  27

- Information Resource Dictionary System Standards and Case Tools  
  *Bernadette M Byrne and Hanifa Shah*  
  41

- The Reverse Engineering of Relational Databases  
  *Linda Campbell and Terry Halpin*  
  50

- Meanings and motives of method customizations in CASE environments-observations and categorizations from an empirical study  
  *Stefan Cronholm and Goran Goldkuhl*  
  67

- A CASE repository based on a service model to support 'open' CASE environments  
  *A.N.W. Dahanayake*  
  80

- MENTOR: A Step Forward in Guidance for Information System Development  
  *Georges Grosz*  
  99

- Specification of services for high performance networking: validation and verification with formal methods  
  *Willem Hengeveld and Dick de Reus*  
  109

- An Intelligent CASE-tool supporting Integrated Business/IT Strategy Planning  
  *Dimitris Kardaras and Bill Karakostas*  
  131

- Support for Incremental Method Engineering and MetaCASE  
  *S.Kelly and V.-P. Tahvanainen*  
  140

- A Graph Theory Metrics Family for Software Assessment  
  *Christophe Nicolas*  
  149

- Federated CASE Environment System-Towards the Realisation of open CASE Environments  
  *S.Papachristos and W.A. Gray*  
  152

- CASE Support for the Localisation of Software Products  
  *Norah Power and Gerry O Neill*  
  160

- Process and Methodology Aspects of Development Processes  
  *Naveen Prakash and Colette Rolland*  
  165
Human Factors and Modern Software Development
  Mathias Rauterberg

Meta-CASE Capability in non-meta-CASE Environments
  John Skelton

Temporal Information Bases for CASE
  Babis Theodoulidis

Integrated Software Development Environments: Requirements for the Next Generation
  Anthony I. Wasserman

The New PPP: Its Architecture and Repository Management
  Mingwei Yang and Arne Sølvberg
Proceedings of the fifth workshop on the next generation of case tools

Babis Theodoulidis
(Editor)

Memoranda Informatica 94-25
May 1994
