

Chris Hardacre
Academic (Teaching & Research) Professor
CEAS - Academic & Research
Photon Science Institute
Dalton Nuclear Institute
Manchester Environmental Research Institute

Overview

Chris Hardacre is Vice Dean and Head of the School of Natural Sciences at the University of Manchester.

He obtained a PhD from Cambridge University in 1994 and was an SERC/junior research fellow at Emmanuel College, Cambridge. He moved to Queen's University, Belfast (QUB) in 1995 as a lecturer in Physical Chemistry and in 2003, he was appointed as Professor of Physical Chemistry. In 2016, he moved to the University of Manchester. In 2004 he was awarded a USAF, Window on Science visiting research fellowship. He was awarded the Royal Society of Chemistry Encouraging Innovation Award with Merck Chemicals Ltd in 2005 for his work in ionic liquids and the US R and D 100 award for the development of spatially resolved measurements in catalytic monoliths with Alex Goguet (QUB) and colleagues from the Oak Ridge National Lab in 2008. In 2013 he was the inaugural winner of the IChemE's Andrew Medal for catalysis.

He has published over 420 papers, 9 patents, 6 book chapters and has an H-index of 67.

Employment

Professor

Academic (Teaching & Research) Professor
CEAS - Academic & Research
The University of Manchester
1 Aug 2019 → present

Professor

Academic (Teaching & Research) Professor
Catalysis and Porous Materials
1 Apr 2016 → 31 Jul 2019

Photon Science Institute

The University of Manchester
1 Aug 2018 → present

Dalton Nuclear Institute

The University of Manchester
22 Oct 2018 → present

Manchester Environmental Research Institute

The University of Manchester
1 Nov 2020 → present
